

**§ 1245.205 Processing of administrative claims.**

(a) *Filing and forwarding of claims.* All communications regarding claims should be addressed to: Agency Counsel for Intellectual Property, Office of the General Counsel, National Aeronautics and Space Administration, Washington, DC 20546-0001. If any communication relating to a claim or possible claim of patent or copyright infringement is received by an agency, organization, office, or field installation within NASA, it shall be forwarded to the Agency Counsel for Intellectual Property.

(b) *Disposition and notification.* The General Counsel, or designee, shall investigate and administratively settle, deny, or otherwise dispose of each claim. When a claim is denied, the Agency shall so notify the claimant or the claimant's authorized representative and provide the claimant with the reasons for denying the claim. Disclosure of information shall be subject to applicable statutes, regulations, and directives pertaining to security, access to official records, and the rights of others.

(c) *Termination of claims.* If, while an administrative claim for patent or copyright infringement is pending against NASA, the claimant brings suit for patent or copyright infringement against the United States in the Court of Federal Claims based on the same facts or transactions as the administrative claim, the administrative claim shall thereupon be automatically dismissed, with no further action being required of NASA.

**Subpart 3—NASA Foreign Patent Program**

AUTHORITY: 42 U.S.C. 2457(h) and Executive Orders 9865 and 10096.

SOURCE: 30 FR 1844, Feb. 10, 1965, unless otherwise noted.

**§ 1245.300 Scope of subpart.**

This subpart establishes policy, criteria, and procedures concerning the NASA Foreign Patent Program.

**§ 1245.301 Inventions under NASA contracts.**

(a) Pursuant to § 1245.113, NASA has facilitated the filing of foreign patent applications by contractors by providing for the granting of a waiver of title to a contractor to any identified invention in countries other than the United States in the event the Administrator of NASA does not desire to file a patent application covering the invention in such countries. However, any such waiver is subject to the reservation by the Administrator of the license required to be retained by NASA under section 305(f) of the National Aeronautics and Space Act of 1958 (42 U.S.C. 2457(f)).

(b) Conversely, where the principal rights in an invention made under a NASA contract remain in the contractor by virtue of waiver, § 1245.19(a)(5) provides that the contractor, upon written request, will convey to the Administrator of NASA the entire right, title, and interest in the invention in any foreign country in which the contractor has elected not to file a patent application.

(c) With respect to inventions in which NASA has acquired and retained the principal rights, NASA will file patent applications in countries other than the United States on inventions selected in accordance with the criteria set forth in § 1245.303.

**§ 1245.302 Inventions by NASA employees.**

(a) The foreign rights of NASA and of the NASA employee making an invention are determinable in accordance with Executive Orders 9865 and 10096 and Government Patent Board Administrative Order No. 6 issued pursuant thereto.

(b) Where NASA acquires an assignment of the domestic rights in an invention made by a NASA employee, NASA will also obtain an option to acquire the foreign rights, including the right to file foreign patent applications on the invention.

(c) Where NASA is entitled to only a governmental license in the invention, the principal foreign rights in the invention are retained by the employee unless he agrees in writing to assign such rights to NASA.
